

LMAX Exchange,
one of the UK's
fastest growing
technology firms

A unique vision for global FX

LMAX Exchange,
one of the UK's
fastest growing
technology firms

The institutional exchange for global FX

LMAX Exchange is the global leader in delivering a transparent, neutral, level playing field to all market participants, including funds, banks, proprietary trading firms, brokerages and asset managers.

As the leading FCA regulated MTF for trading FX, metals, commodities and indices, LMAX Exchange operates a central limit order book with streaming firm only liquidity, from top tier global financial institutions.

LMAX Exchange is part of the LMAX Exchange Group, a global, high-growth, award-winning financial technology company with a solid presence and exchange infrastructure in all major global FX markets, including Europe, North America and Asia-Pacific.

Institutional FX trading excellence

The unique LMAX Exchange business model addresses fundamental changes within the FX market, solving two key industry problems:

- › **The lack of transparency of the true cost of OTC traded FX**
- › **The lack of precise, consistent & reliable FX trade execution**

LMAX Exchange delivers transparent cost of trade and neutral execution to both buy-side and sell-side through an open order book, driven by no 'last look' streaming, firm limit orders supplied by top tier banks and proprietary market makers.

Transparent exchange quality execution

The 'exchange' model is an efficient and cost-effective way to trade very liquid products, such as spot FX. In an industry currently driven by regulatory reforms, LMAX Exchange offers a transparent, neutral, level playing field to all participants in the FX market.

Real-time, full order book, market and trade data

Access to real-time market data is critical for risk management and best execution. With LMAX Exchange both market and trade data are available via multiple connectivity options.

Bilateral clearing

LMAX Exchange operates a market-standard bilateral bank to bank clearing system. For clients without a prime broker relationship, we can provide direct competitive margin facilities through LMAX Global, the FCA regulated broker for FX, part of the LMAX Exchange group.

Transparent and fair execution

- › **Central limit order book, streaming firm liquidity only**
- › **One public Rulebook applied to all members**
- › **Pre- and post trade price transparency**
- › **Zero cost of rejection**
- › **Price improvement as standard**
- › **All orders time-stamped in μ s. (receipt to execution)**
- › **Real-time, streaming, full order book market and trade data**
- › **Global exchange infrastructure - Equinix NY4, LD4 & TY3**
- › **The leading FCA regulated MTF for global FX**
- › **Committed to the Global FX Code**

No 'last look' and price improvement as standard

LMAX Exchange delivers the unique benefits of exchange quality execution, complete pre and post-trade transparency and a secure, level playing field for all market participants.

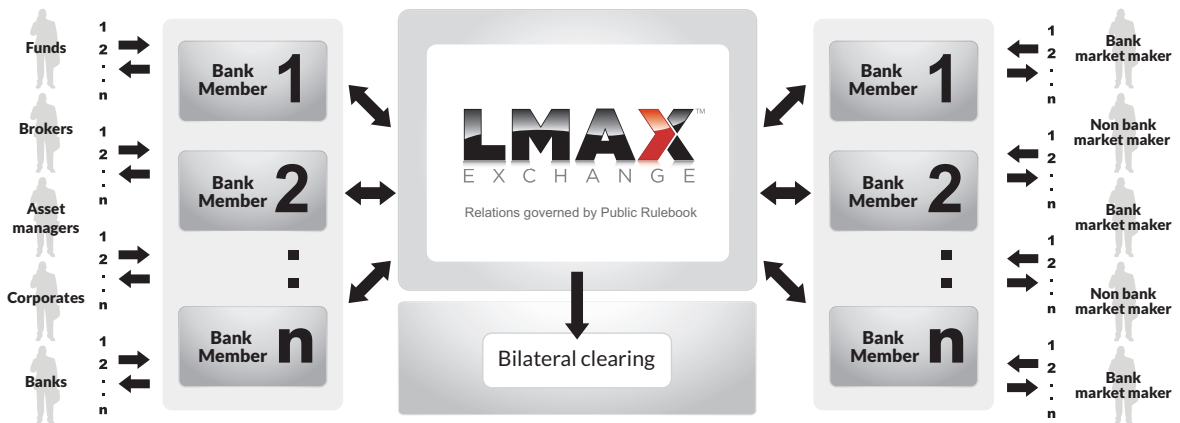

For funds, banks, proprietary trading firms, brokerages, asset managers, and corporates - our open order book, direct and anonymous market access to live, streaming limit-orders with no 'last look' and price improvement as standard, ensures precise, consistent trade execution and transparent cost of trade.

A level playing field for all participants

LMAX Exchange enables participants to trade anonymously within an environment where access to the same technology and execution quality is available to all - regardless of status, size or activity levels.

The LMAX Exchange schematic overview

Award winning technology

The unique minimalist approach of LMAX Exchange to architecture and technology related processes is a careful blend of in-house intellectual property and the most up-to-date best practice and is recognised for excellence and innovation:
